

## Mission Statement

We are a sanctuary for all voices, all colors, all orientations, all abilities and all families – a gathering place for everyone, no matter the path of their faith journey.

We are passionate about prayer and following the ways of Jesus; about the power of music and the wisdom of children; and about living in harmony with ourselves, our neighbors, nature, and God.

We are an authentic community proclaiming the stories of God's works in our lives.

We are mentors working to nurture each other's spiritual gifts for practice in our daily lives - in social service agencies, in corporations, on the playground, in the church, in our neighborhoods, and in our homes.

And we are followers, always listening for God's call as to where to use our gifts.

We are Christians living happily in a multi-faith world and working to heal it as best we know how.

We speak the truth we know without pretending to know all the truth there is.

And we are intentionally growing a community whose members seek the courage to live as light of the world - as people of hope whose vow is to tell everyone how precious they are.

We are Disciples of Christ, a movement for wholeness in a fragmented world.

We'd love to share our space with you!
